

Michael Kemp

Blue Sky Shadows

Michael Kemp was a founder and member of the german band „Blue Sky“. The songs which were performed by the band (1978 - 1982) and included in this album are:

Vibro Champ
Rock 'n Roll in the Mud
Dreamer
Statue Song

Red Light Girl
Cocktail Faces
Never trust a pretty Woman
Pepperoti

Some of the songs which were written by Michael Kemp to be played by Blue Sky can be heard on the album „No turning back“ which will soon be released. Unfortunately the band separated before.

„The arrangements are modified, but I hope that the original mood of the songs is still revealing. These new versions mirror my personal vision, how the songs should sound. Since no recordings of Blue Sky have been available, I wanted to fill this gap and it makes me remembering one of the best times in my live. Hope you do so, too...“
